

Former staff quarters burnt down

KUALA LUMPUR,
Sun. — Fire destroyed
an unoccupied wooden
house in Jalan Bukit
Guillemard at noon to-
day.

The house was used
previously, as the staff
quarters for Socfin Bhd.

It is believed the house
was to be demolished to
make way for a new
building.

Police said workers
were clearing the area
around the house at the
time of the fire.

They believe the work-
ers were burning some
rubbish when the fire
spread to the building.

Workers tried in vain
to put out the fire. They
then summoned the fire
brigade.

Firemen had difficulty
reaching the place and
had to park the fire en-
gines some distance
away because there was
no proper road.
